

Meeting Minutes – 18 April 2026

Platform: Online (Teams)

Date: 18 April 2026

Time: 16:00

Attendees

Yusra

Phelelani

Keanu

Mika

Shazmeen

Discussion Points

1. Pull Requests & Progress

- Only one pull request remained open
 - Keanu confirmed that requested changes had been made and the PR is now ready
 - Team agreed that remaining PRs should be reviewed and closed quickly
 - Continued emphasis on completing all enhancements before final testing phase
-

2. Sprint Completion Strategy

- Team confirmed plan from previous meeting:
 - Complete all feature development first
 - Reserve final time (Sunday) for testing and code coverage improvements
 - This approach ensures minimal disruption during final testing
-

3. Testing Support

- Yusra is working on the forgot password feature
- Assistance required for writing test cases
- Shazmeen offered to assist with testing and debugging

- Testing remains a shared responsibility within the team
-

4. Backlog Refinement & Documentation

- Discussion on where to store backlog-related tables and updates
 - Agreed to upload backlog refinement documents to OneDrive
 - Documentation continues to be centralised in shared storage
-

5. Story Points & Task Estimation

- Discussion on including story points in backlog items
 - Story points represent estimated effort/time for tasks
 - Consideration of whether to include:
 - Target dates
 - Estimated completion time
 - Decision to confirm requirements with tutor before finalising
-

6. Task Coordination

- Yusra plans to submit forgot password PR by approximately 18:30–19:00
 - Team will review the PR as soon as it is submitted
 - Coordination required to ensure quick turnaround on reviews
-

7. General Progress Check

- Team confirmed that most work is nearing completion
 - No major blockers identified at this stage
 - Focus now on:
 - Finalising features
 - Testing
 - Documentation
-

Decisions Made

- Complete all feature development before focusing on testing
 - Upload backlog refinement documents to OneDrive
 - Provide support for testing across team members
 - Review PRs immediately upon submission
-

Next Steps

- Finalise remaining feature implementations
- Submit and review outstanding PRs
- Complete testing and improve code coverage
- Finalise backlog refinement documentation
- Confirm story point and estimation requirements with tutor
